Dr Benny Tjahjono

Prof. Benny Tjahjono, PhD: Cranfield University-UK: Engineering scientist: Logistic and Manufacturing science

Dr Tjahjono holds a first degree in Electrical Engineering, an MSc and a PhD both in Manufacturing Systems Engineering. He won a scholarship scheme sponsored by the British Government's Foreign and Commonwealth Office/ BUNZL/ Cranfield University, for undertaking the Manufacturing MSc course at Cranfield University, and was also awarded the best student upon completion of that course. He subsequently received a scholarship from the Foreign and Commonwealth Office with the support of the Department of Trade and Industry, British Universities and the industry sectors, to pursue his PhD in Manufacturing Systems Engineering, also at Cranfield University.

His overarching research focus embraces the area of Operations and Supply Chain Management, which incorporates production and service systems. He has a particular interest in the contemporary applications of Simulation Modelling (Discrete-event Simulation, System Dynamics and Agent-based Simulation) to many emerging research areas related to manufacturing systems, such as "servitization" of manufacturing, Product-Service Systems and sustainable manufacturing. His background in electronics enables him to devise an innovative method to integrate asset condition-based monitoring to support the operational planning/execution of the Through-life Engineering Service contracts using the symbiotic simulation techniques.

Prof David Charles

Professor of Enterprise and Innovation, Department: Newcastle Business School,UK

David Charles joined Northumbria from the University of Lincoln where he was Director of Research and Deputy Head of College in Lincoln International Business School. David started his career as an economic geographer with an interest in the location of R&D and innovative activities and was for many years a researcher in the Centre for Urban and Regional Development Studies at Newcastle University, before taking up the David Goldman Chair of Business Innovation in the Business School there. In Newcastle University Business School, he was director of research then director of a faculty research institute for policy and practice. He also established a new research Centre on Knowledge, Innovation, Technology and Enterprise (KITE). He moved from Newcastle to Curtin University in Perth, Australia where he was dean of research in the Business faculty before moving to Strathclyde where he was professor of regional economic development and policy at the European Policies Research Centre. He moved from there to Lincoln in 2014 and joined Northumbria in 2018

David is a visiting professor currently at Anglia Ruskin University, Tampere University, Finland and Lincoln University. He has previously been a visiting professor at Curtin University, Australia, Newcastle University, and RMIT University, Melbourne.

Fellow of the Academy of Social Science,

Fellow of the Regional Studies Association

Research grant evaluation and review for ESRC, EPSRC, Leverhulme Trust, European Commission FP5 and FP7, and Dutch and Irish research organisations.

Member of the editorial board for the Journal of Management and Organisation
